

Senior Software Engineer, UI Cover Letter

7758 Greenholt Turnpike
Irwin, CO 63601

Dear Greer Bauch,

I submit this application to express my sincere interest in the senior software engineer, UI position.

In the previous role, I was responsible for project estimates and status to the lead engineer or lead a project interacting directly with the rest of competencies (HW, PM, MECH, VAL, AME, AE) and customer.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience working with Unit / Integration Testing tools for UI
- Passionate problem solver with a focus on high quality user experience
- Proficient with JavaScript and latest web technologies
- Absolute expertise on PL/SQL (hands on) on Oracle Database
- Basic knowledge of Java scripting , HTML, CSS
- Scheduling skills using Control M
- Understanding of Agile methodology would be an added advantage
- Familiarity with Java/CoFFEEScript/React/Gulp

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Stevie Beahan
