

Senior Specialist Developer Cover Letter

75897 Eliseo Square North Kareemville, AK 59190-5484

Dear Tatum Hartmann,

I submit this application to express my sincere interest in the senior specialist developer position.

In my previous role, I was responsible for independent assessment and technical review to validate adherence to best practices and design principles that would be compliant with client standards.

Please consider my qualifications and experience:

- Capable of creating and improving Agile methodologies, tools, and guidelines
- Wide assessment and knowledge in software configuration tools in IT services
- Proven hands-on programming experience with complex projects
- Expert in detailed design in IT globally, or expert in setting up global application lifecycle
- Full comprehension of software engineering principles
- Expertise in technical review/verification of work of others
- Knowledge and/or experience in back-end development
- Excellent skills in MSoffice, particularly in Excel and PowerPoint

I really appreciate you taking the time to review my application for the position of senior specialist developer.

Sincerely,

Sam McGlynn
