

Senior Web Developer Cover Letter

351 McCullough Causeway
Ritchie Land, NY 58328

Dear Lennon Kunze,

I would like to submit my application for the senior web developer opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for advanced testing and guidance for the finalization of web applications and websites for next level production.

My experience is an excellent fit for the list of requirements in this job:

- Experience deploying, configuring, troubleshooting and maintaining applications in a Linux environment
- Experience with code versioning and social coding best practices using tools such as GitHub
- Diverse technical experience beyond Drupal
- Experience improving visibility of websites using SEO (search engine optimization) and SWI (semantic web identity) strategies
- Be a fully empowered member of a cross-discipline Agile team tasked with delivering scalable, extendable, and fully testable code
- C# 7+, JavaScript 5+, HTML 5+, SQL 5+, Unit testing (nunit) 1+, Ajax 5+, ORM/Entity Framework 4+, WCF Services 3+, Security (XSS, SQL Injection, CSRF,) 3+, Design Patterns 3+, MVC 4.1 2+, JQuery 3+, Angular 1+, CSS 2+, SQL Server/T-SQL 5+, SVN/Git 5+
- Experience with XML, JSON, LESS/SASS and CoffeeScript
- Experience with Rich Internet Applications, javascript frameworks (AngularJS, BackboneJS), and coding aspects such as OOP and MVC

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Lennon Leannon
