

Senior Web Developer Cover Letter

4716 Yundt Freeway North Jesse, NC 01969

Dear River Walter,

Please consider me for the senior web developer opportunity. I am including my resume that lists my qualifications and experience.

Previously, I was responsible for feedback on planned product release and ensure the planned features for the current release are taken on respecting technical dependencies.

My experience is an excellent fit for the list of requirements in this job:

- Expertise in creating Web services/Integration based on .Net framework and or any other 3rd party Integration tools
- Basic Experience in developing and maintaining Salesforce/visualforce, AppExchanges, Force.com pages and integration to other third-party solutions
- Basic experience with Java/J2EE application development
- Basic knowledge of JIVE
- Experience on licensing tools such as flexra would be an added advantage
- Leverage and implement the industry best practices and learning with respect to Web development
- Work directly with onshore partners to obtain information on projects & specific instructions for making updates on plan documents
- Work with peers & internal QC/audit teams as per the process work-flow

Thank you for considering me to become a member of your team.

Sincerely,

Hayden Ledner
