

Senior Web Developer Cover Letter

434 Cummings Parks South Arlie, NY 90238-1782

Dear Briar Kassulke,

Please consider me for the senior web developer opportunity. I am including my resume that lists my qualifications and experience.

In the previous role, I was responsible for daily support to various sections content updates needs to include creation of new pages and updating of existing pages.

My experience is an excellent fit for the list of requirements in this job:

- Strong experience in dynamic website development via HTML5, AJAX, Javascript, PHP, JSP, SQL
- Experience with Drupal or similar web application and module development within software framework and Content Management Systems such as jQuery, Symfony, AngularJS, Wordpress
- Development experience with social media APIs (Facebook, Twitter, Google+, etc)
- Working knowledge and understanding of graphic design software for print and web (such as Adobe Photoshop, Illustrator, Indesign and etc)
- Strong understanding of web analytics implementation throughout websites and applications (such as Google Analytics), and performing quality checks to ensure tracking and reporting is correct
- Understanding of LAMP stack environment, and Linux server administration
- Knowledge of library systems, and web infrastructures preferred
- Expert-level PHP and JavaScript coder

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Lennox Paucek
