

Services Administrator Cover Letter

124 Stroman PinesThufurt, MI 61153-3514

Dear Shiloh Roob,

In response to your job posting for services administrator, I am including this letter and my resume for your review.

Previously, I was responsible for working knowledge of the principles, practices, standards, methods, and techniques of the Environmental Services field; usually interpreted as more than 1 year of applicable experience.

Please consider my qualifications and experience:

- Scripting – ideally Perl, shell scripting
- Experience with user management software, ideally LDAP
- Scheduling Tools, ideally Control-M
- Knowledge of a second foreign knowledge, German would be an asset
- Demonstrated administrative office skills including keyboarding
- Troubleshoot complex issues that would involve working with other teams
Microsoft Exchange, SAN, Networking Service, and other teams
- Experience in managing cloud/datacentre infrastructure (eg
- DBA skills (eg

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Alexis Beer
