

Services Technician Cover Letter

8156 Yundt BypassNew Sherryton, PA 68161

Dear Ryan Wyman,

I submit this application to express my sincere interest in the services technician position.

In my previous role, I was responsible for provision of anesthesia support, pre and post procedural care, coordinating surgical study equipment repair and calibration.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Create and maintain in conjunction with the Supply Chain Management team, accurate detailed manufacturing Bill of Materials during the life of the project
- Support the review and implementation of customer variations/variation orders for current contracts
- Completed a Geometric Dimensioning and Tolerancing (GD&T) Standard Training
- Familiar with engineering and manufacturing process and tools
- Previous experience of managing Linux environments such as CentOS 5/6/7, RHEL 5/6
- Basic understanding of networking principles and protocols
- Clean cut individual, no visible tattoos
- Able to work in a team environment work independently

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Rory Marvin
