

# SharePoint Engineer Cover Letter

2735 Dallas SpurOrnburgh, MD 29855

**Dear Oakley Bradtke,**

I would like to submit my application for the sharepoint engineer opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for linkShare/SharePoint 2010 consultation and training, assisting office content managers with advice in best practices and most efficient use of LinkShare/SharePoint 2010 to accomplish office specific goals.

Please consider my experience and qualifications for this position:

- Strong C#, AJAX, JQuery, XML/, Client Object Model, and Service Oriented Architecture XLST, development knowledge and working experience
- Familiarity with ClearQuest, ClearCase,, SAP, SAP MII, or TeamCenter
- Extensive SharePoint and Microsoft technology experience
- Support experience with configuration, security, operation, and maintenance of all web portal servers, equipment, and software related to SharePoint infrastructure
- Familiarity with development lifecycle, configure and maintain document libraries, enterprise lists and site collections
- Have an understanding of the relationship between the SharePoint environment and active directory, SQL, IIS
- Willingness to learn new technologies and versions
- Knowledge of Continuous Integration systems

**I really appreciate you taking the time to review my application for the position of sharepoint engineer.**

Sincerely,

Sawyer Lang
