I would like to submit my application for the sharepoint engineer opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for consultation on SharePoint best practices to end user community and SharePoint team members.

My experience is an excellent fit for the list of requirements in this job:

- Capable of effectively communicating with internal and external customers possessing various levels of technical knowledge
- Experience with programming languages for SharePoint development, including C#, .NET, ASPX, HTML, CSS, JavaScript, jQuery, SP services, AJAX, CAML, XML, and XSL, SQL
- Experience with building InfoPath forms and in PowerShell
- Experience with Microsoft Office SharePoint Server and Microsoft Office Development
- Knowledge of the .NET framework, including C#
- Experience with requirements gathering, SDLC programming, and systems analysis
- Experience with stakeholder interaction, quality assurance support, and operational guidance
- Experience in military health

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Baylor Beatty
