

Shift Superintendent Cover Letter

15837 Joseph ShoresThompsonstad, SC 66508

Dear River Hackett,

I am excited to be applying for the position of shift superintendent. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for technical/professional support regarding applicable Health, Safety, Environmental and Security (HSE&S) regulations and issues at the site.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Advises management of project quality assurance problems and progress
- A firm understanding of one-piece flow methodology
- Maintains client liaison and communication for project quality assurance activities
- Intimate knowledge of the manufacturing process used by the company
- Training or basic knowledge of production processes and machinery
- Strong knowledge of chemistry, chemistry control of various systems, drinking water treatment, and wastewater treatment
- Functional knowledge of plant operations related to plant chemistry, radiological and environmental protection
- Strong working knowledge of radwaste management, shipping and disposal practices

Thank you for considering me to become a member of your team.

Sincerely,

Indigo Conn
