

Software Analyst Cover Letter

615 My RoadsJoimouth, NC 53506-6951

Dear River Lehner,

I am excited to be applying for the position of software analyst. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for analysis and input for recommend material, nonmaterial, and technical solutions to enhance Army protection capabilities to the HQDA staff, Army Installation and Garrisons, Army Commands (ACOM), Army Service Component Commands (ASCC), and Direct Reporting Units (DRU).

Please consider my experience and qualifications for this position:

- Experience in HPC applications, modeling and simulations
- Demonstrated working knowledge in big data applications
- Experience in server cluster administration
- Experience with Complex Systems Framework
- Professional Audio Visual Equipment experience
- Knowledge of information system security architectures, procedures and process
- Modeling & Simulation technologies
- Proven end to end Software Asset Management skills, from inventory and entitlement inventory extraction to ELP and execution of software optimisation

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Avery Labadie
