

# Software Analyst Cover Letter

22292 West Viaduct Boganborough, GA 98457

**Dear Story Denesik,**

In response to your job posting for software analyst, I am including this letter and my resume for your review.

Previously, I was responsible for analysis and input for recommend material, nonmaterial, and technical solutions to enhance Army Emergency Management capabilities to the HQDA staff, Army Installation and Garrisons, Army Commands (ACOM), Army Service Component Commands (ASCC), and Direct Reporting Units (DRU).

Please consider my experience and qualifications for this position:

- Data analysis & proficiency in Excel
- SAM process evaluation
- Software licensing experience in major software vendors – Oracle, IBM, Microsoft, Veritas, VMware
- Understanding of IT infrastructure and virtual environments
- Demonstrated knowledge of programming languages applicable to the assignment
- Demonstrated knowledge of common program testing and data file manipulation practices and access methods
- Demonstrated knowledge of the theories, principles and practices of systems and applications programming in a version control system environment
- Demonstrated knowledge of the functions and capabilities of computer operating systems and software programming applications

**Thank you for your time and consideration.**

Sincerely,

Oakley Keebler
