

Software Automation Engineer Cover Letter

1013 Reginald BrookMantev, AR 32779

Dear Riley Predovic,

I would like to submit my application for the software automation engineer opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for status at daily scrums and follow Agile methodology to complete tasking and meet deadlines.

My experience is an excellent fit for the list of requirements in this job:

- Demonstrable understanding of UNIX/Windows system components and their interactions, including file systems
- RF communication exposure
- Visual Studio command
- Coverity knowledge
- Test Track knowledge
- Ixia / Spirent
- Engineer should be well versed in UNIX environment and setup
- Engineer should have extensive automation and software development background – looking for a senior person

I really appreciate you taking the time to review my application for the position of software automation engineer.

Sincerely,

Indigo Kulas
