Software Automation Engineer Cover Letter

89305 Valery RowMacejkovicton, VA 88431

Dear Indigo Schuppe,

I am excited to be applying for the position of software automation engineer. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for leadership and direction for Agile, SAFe (scaled agile framework) adoption & implementation and test automation for upcoming NPIs.

Please consider my qualifications and experience:

- REST/SOAP Automation, familiarity or expertise using tools like JMeter and SoapUI
- Build and unit test experience using tools like Make, Maven, TestNG and Junit
- Professional experience working in an agile development environment
- Exposure to Continuous integration for test automation
- Knowledge of Services and API layer testing
- Proficient knowledge of the Microsoft Office products – to include Access queries and Excel macro
- Proven use of other development languages
- Exposure to other development or test automation tools/frameworks

Thank you for your time and consideration.

Sincerely,

Morgan Shields
