

Software Automation Engineer Cover Letter

27505 Corkery Walk
Port Kendabury, LA 94856-3869

Dear Brooklyn Volkman,

I would like to submit my application for the software automation engineer opening. Please accept this letter and the attached resume.

Previously, I was responsible for support to DBTs in Bangalore/Brisbane on QA environments, E2E pipeline in Jenkins, etc.

My experience is an excellent fit for the list of requirements in this job:

- Familiarity with Object Orientated Design and Analysis
- Strong sense of ownership and high drive for results
- Rating should be between 5 to 7
- Experience using TestComplete to automate software UI testing
- Experience using Jenkins to schedule and manage test runs and results
- Experience using VMWare (including vSphere) to set up and maintain virtual Windows test environments
- Familiarity with JIRA for managing defects and tasks
- Knowledge of software test principles and practices

I really appreciate you taking the time to review my application for the position of software automation engineer.

Sincerely,

Tatum Hahn
