

Software Developer Cover Letter

745 Johns StreamTysonton, ME 60206

Dear Marion Price,

I am excited to be applying for the position of software developer. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for direct and ongoing leadership for an organization of multiple subordinate managers and individual contributors designing and developing new products, enhancements and updates and managing projects for systems software, including operating systems, compilers, networking, utilities, databases, and Internet-related tools.

Please consider my qualifications and experience:

- Should have worked on Development and Implementation based projects
- Understanding of Agile Software Development Process and Continuous Integration practice
- Experience in firmware/embedded systems development
- Experience in (software) version control systems environments
- Experience in low level device/service drivers development
- Solid knowledge in C/C++, C#, .NET, Windows Applications (Win32, Threads, DirectShow, High Performance/Real Time), Windows Platform Development, Visual Studio, Configuration Management
- Knowledge and experience of developing secure, high performing web solutions
- Demonstrable success of delivering in a Microsoft environment

Thank you for taking your time to review my application.

Sincerely,

Parker Casper
