

Software Developer Cover Letter

7113 Augustus Station Collierside, MT 30685-8937

Dear Rory Wehner,

Please consider me for the software developer opportunity. I am including my resume that lists my qualifications and experience.

In the previous role, I was responsible for systems engineering support for providing rigor to the design, development, and operation of NCEI systems and applications.

My experience is an excellent fit for the list of requirements in this job:

- Experience with other programming languages including Python, Ruby, JVM Languages, C/C++
- Experience working with security/authentication models (Active Directory, OAuth, SAML, Single sign-on)
- Experience writing web applications that run across multiple servers or in the cloud
- Experience using HTML and CSS to lay out web pages
- Resourceful, tenacious, action-oriented temperament that can deal equally well with concrete requirements abstract or fluid circumstances
- Experience with javascript, php, MySQL, TCP/IP, C++, Python, and network programming preferred
- EE preferred
- Knowledge of energy efficiency, solar industry and lighting industry preferred

Thank you for considering me to become a member of your team.

Sincerely,

Briar MacGyver
