

Software Developer Cover Letter

8285 Wolff ForkNew Mitchell, OR 25176

Dear Charlie Fahey,

I would like to submit my application for the software developer opening. Please accept this letter and the attached resume.

Previously, I was responsible for divisional leaders with financial models to assist with creating budgets and revenue targets for the Annual Operating Plans.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Team Leading & COTS product customization experience would be an advantage
- RDBMS (Oracle / DB2)
- Solutions like Content Management System, Portals, and Service Delivery Platform
- Hands on experience on Core Java, Web Services, JSP, Servlets, EJB, JMS, Struts/Spring, and Relational database management system
- Hands on experience working on web server (Apache Tomcat) and application server (Web logic or JBoss)
- Should have good knowledge in writing & execution Integration, Functional and Performance tests
- Database knowledge (Oracle 10i, MySQL)
- Should have good skills on trouble shooting tools and loves trouble shooting

I really appreciate you taking the time to review my application for the position of software developer.

Sincerely,

Haven Bartell
