Software Engineer Internship Cover Letter

746 Botsford SpursOmerville, MA 05894

Dear Campbell Goodwin,

I would like to submit my application for the software engineer internship opening. Please accept this letter and the attached resume.

Previously, I was responsible for requirements analysis and flow-down of Safety requirements and attributes in the Dynamic Object Oriented Requirements System (DOORS).

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Completed at least one CS (or related) course in college
- Basic experience in front end technologies such as HTML, CSS, and JavaScript
- Completed AP CS course in high school (or equivalent)
- Completed AP CS exam in high school (or equivalent)
- Preferred experience in scripting language Perl, Python, JavaScript, etc
- Preferred experience in object oriented programming language such as Java or C++
- Currently enrolled in university and plan to return for additional school terms prior to graduating
- Proficient in object-orientated programming languages (Java, C, C++, etc)

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Azariah Reilly
