

Software Engineer Internship Cover Letter

8618 Wilda Square
Karinaland, CT 33713

Dear Alexis Morissette,

I am excited to be applying for the position of software engineer internship. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for feedback for the development of the optimization value tool for hybrids in a statistical software programming language (i.e., R, Python, etc.).

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Currently pursuing BS in Computer Science or equivalent
- Intermediate skills with software
- Automated testing and Java
- Exposure to Selenium/Cucumber
- We solve Big Data problems with Hadoop and other similar type technologies
- We work with web services and associated notations (REST, JSON and XML)
- Has good knowledge of Microsoft cloud technologies (Office 365, SharePoint Online, Azure) and back office platform (SharePoint, SQL) and frameworks (.NET, PowerShell)
- Experience with web analytics tools (Google Analytics, Webtrends,) is highly desirable

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Skyler Grant
