

Software Engineer, Test Cover Letter

71983 Reynolds SummitWest Nicolas, CT 83488-7266

Dear Sam Satterfield,

I would like to submit my application for the software engineer, test opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for technical leadership, leading a scrum team of engineers in the design and development of solutions, specifically via service oriented architecture and web applications, and also understands and supports other thick client applications that interact with the platform.

Please consider my qualifications and experience:

- Customer service experience in software support
- Implementation of software in the organization
- Develop and conduct ESI and Epic software training
- Creation of SQL queries for custom reports from the ESI database
- Migration of Epic and ESI to Siemens TeamCenter Unified
- Computer function in a manufacturing environment
- Experience testing software program changes
- TcUA experience

Thank you for taking your time to review my application.

Sincerely,

Emerson Bashirian
