Software Engineer, Test Cover Letter

50060 Lanny VilleEast Danika, MI 82424-6540

Dear Emery Champlin,

I submit this application to express my sincere interest in the software engineer, test position.

In my previous role, I was responsible for sE&I and Analysis to implement customer vision to replace aging legacy interfaces with an Open System, Service-Oriented Architecture.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience with SQL, ASP.NET, C# and .NET is preferred
- Scripting knowledge of Javascript and JQuery
- Good knowledge of C# and/or Java
- Working knowledge of Objective-C
- Good Understanding of Unit testing in tools such as Eclipse, XCode, and Visual Studio
- Proficiency with scripting and OO language(s) - ideally C# (C++ is a bonus)
- Great problem solving skills and a detail-oriented approach
- Knowledge of programming in C#, C/C++, XML, Java and JavaScript

Thank you for considering me to become a member of your team.

Sincerely,

Blake Koch
