

# Software Engineering Internship Cover Letter

93986 Ned ParkwayOlsonbury, NH 54551

**Dear Campbell Marvin,**

I would like to submit my application for the software engineering internship opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for expertise in integrating, installing, configuring, upgrading, compiling and supporting COTS/GOTS software in a heterogeneous operating system environment.

My experience is an excellent fit for the list of requirements in this job:

- Pursuing graduate studies in Computer Science or related fields
- Knowledge of software design concepts, such as object-oriented programming, common design patterns, algorithms, and development lifecycles
- Knowledge of video games development and engines (Unreal Engine, Marmalade, Cocos2D, Unity)
- Understanding of software localization and internationalization technologies and practices (Unicode, encodings, text rendering, fonts)
- Experience in web technologies (TypeScript/JavaScript, HTML, CSS, AngularJS, React, NodeJs) and working with databases (MS SQL, MongoDB, ) would be an asset
- Work and innovate on radar solutions and algorithms
- Perform tests, record measurements and report
- Explore into tracking algorithms, clutter-removal, object identifications

**Thank you in advance for reviewing my candidacy for this position.**

Sincerely,

Brooklyn Terry
