Software Quality Test Engineer Cover Letter

69175 Willms InletWest Dominique, IL 72147

Dear Emerson Bayer,

I submit this application to express my sincere interest in the software quality test engineer position.

Previously, I was responsible for guidance and training on test tools and processes for automated testing to be executed across multiple sites.

Please consider my experience and qualifications for this position:

- A passion/interest in software testing and quality
- An eye for detail and willingness to learn
- Familiarity with test automation frameworks and test harness development
- Familiarity with continuous integration tools like Jenkins, SCM tools like Git
- Fundamental knowledge on software security testing
- A Team player who can be counted on
- Willingness to learn and share and improve continuously
- An eye for detail and open to challenges

Thank you for taking your time to review my application.

Sincerely,

Casey Howell
