

Software Quality Test Engineer Cover Letter

52375 Sparkle ParkwaysMertzmouth, HI 76994

Dear Azariah Green,

I would like to submit my application for the software quality test engineer opening. Please accept this letter and the attached resume.

Previously, I was responsible for testing support to projects and product releases both with automated tests, and manual testing as required.

Please consider my qualifications and experience:

- Familiarity with the SpaceWire communications protocol
- Familiarity with the Integrated Test and Operations System (ITOS)
- Experience with Mathworks Matlab, Simulink, and Design Verifier
- Experience with Static Analysis and Model Checking
- Experience with software inspection
- Experience within testing and programming is an advantage
- Experience from automated testing
- Experience of networking protocol, preferably L2 protocols, MEF-services, SDN and networking knowledge in general

Thank you for considering me to become a member of your team.

Sincerely,

Hayden Hettinger
