SQL Developer Cover Letter

1854 Orville PlainsJordonbury, WV 24203-6271

Dear Indigo Schiller,

I am excited to be applying for the position of SQL developer. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for microsoft SQL Systems DBA support for operational tasks including database/instance migrations, migrating SQL security to Active Directory, troubleshooting SQL issues and supporting customers.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Use of version control (SVN or other tools / methodologies)
- Defining and utilizing data warehouses and dynamic reporting (including but not limited to data modeling, ETL architectures, OLAP, drillable reports, star/snowflake schemas, etc)
- Dealing with database performance and scaling issues
- Using of SCRUM and Agile methodologies for iterative software development
- Strong knowledge of MS Excel (worksheet design, advanced functions and pivot tables)
- Proficiency in SQL authoring
- Performance optimization of database objects - views, stored procedures
- Experience in designing ETL processes using SSIS technologies

Thank you for your time and consideration.

Sincerely,

Quinn O'Conner
