SQL Developer Cover Letter

32865 Nikolaus LodgeSouth Levi, DE 08695-9723

Dear River Douglas,

I would like to submit my application for the SQL developer opening. Please accept this letter and the attached resume.

Previously, I was responsible for expert advice to Customers and Developers on Microsoft SQL and Oracle.

My experience is an excellent fit for the list of requirements in this job:

- Provide technical leadership and support for data quality (DQ) technology, including development, data profiling, and data quality assessments
- Creating, maintaining and optimising database objects such as stored procedures
- Creating, maintaining and optimising ETL processes
- Understanding of security models, integration and infrastructure
- Self-starter, able to work without requiring continuous support
- Flexibility and `can do` attitude, especially when working to right deadlines and with a customer focused approach
- Understanding of best practices with relational databases
- Experience in SSDT

Thank you for your time and consideration.

Sincerely,

Spencer Pacocha
