

# SQL Programmer Cover Letter

951 Judson CovesPort Magen, FL 69233

**Dear Ari Mosciski,**

Please consider me for the SQL programmer opportunity. I am including my resume that lists my qualifications and experience.

Previously, I was responsible for application development, C++ coding, scripting, release building, administration and support for the Rapid Connect Authcore application.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience and Knowledge of PL/SQL and Oracle 11g and 12C environment
- Foundation in software engineering principles including object oriented programming, design patterns, and SOLID
- Experience consulting for clients and stakeholders
- Able to communicate technical concepts effectively to members of cross-functional teams, clients, and stakeholders
- Experience with Lawson Process Flow and Infor Process Automation (IPA) development and administration
- PL/SQL & T-SQL query writing for both Infor Lawson & Blue Cube (stored procedures, views)
- WebSphere administration & programming (IBM WebSphere portlets) knowledge
- Mobius administration & programming (upgrades & security)

**I really appreciate you taking the time to review my application for the position of SQL programmer.**

Sincerely,

Rory Ward
