SQL Programmer Cover Letter

64726 Jann DaleEast Juleeland, CO 77748

Dear Rowan Johnson,

I am excited to be applying for the position of SQL programmer. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for comprehensive consultation to business unit and IT management and staff at the highest technical level on all phases of application programming and processes for diverse development platforms, computing environments.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- C# and SQL
- Other application skills that would be advantageous include, GMC Inspire Automation / Interactive
- Previous experience of working with colour digital printers would be an advantage
- Should have basic understanding on SQL Server Integration Services (SSIS) and SQL Server Reporting Services (SSRS)
- Good knowledge of RDBMS concepts & DB design
- Should be strong in Transact-SQL writing Stored Procedures, UDF and Triggers on high transaction systems
- Monitor database systems, create baselines & alerts, and proactively fix issues to ensure production database systems work seamlessly
- Experience with at least one ETL tool for SSIS, Alteryx, Informatica etc

Thank you for considering me to become a member of your team.

Sincerely,

Greer Jacobi
