

# Staff Network Cover Letter

9679 Wayne UnionsPort Roseann, NJ 94594-5280

**Dear Hayden Hintz,**

I would like to submit my application for the staff network opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for strategic direction on technology options & develop recommendations for a multi-vendor IP Core Network that includes Cisco/Juniper/Nokia Routers, Switches, Firewalls, Load Balancers and Security platforms.

My experience is an excellent fit for the list of requirements in this job:

- Prior experience with BGP, VRF, NAT/PAT nice to have
- Load balancer configurations (ACE, Netscaler, Foundry) nice to have
- NX-OS Experience nice to have
- Familiarity with PCI and FFIEC design/audit requirements nice to have
- Proven engineering skills and experience to validate manufacturing processes, equipment, and test methods within a FDA regulated manufacturing environment
- Demonstrated knowledge and use of project management, problem solving and issue resolution tools/methods
- Encourage and enforce best practices to enable rapid new feature development while maintaining multiple
- Install, configure, and extend a variety of software systems, including software for version control, code peer review

**I really appreciate you taking the time to review my application for the position of staff network.**

Sincerely,

Dylan Stanton
