

# Staff Network Cover Letter

2273 Legros Falls South Veola, AK 92038-1055

**Dear Indigo Rogahn,**

I submit this application to express my sincere interest in the staff network position.

In my previous role, I was responsible for strong technical insight and resolution actions for incidents across the following hardware and software: Check Point, Palo Alto, Netscreen, F5, Cisco ACE, Cisco Nexus routers and switches.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Configuration Management (SCM)
- Experience with distributed source control tools such as git
- Systems using configuration management tools such as Docker, Puppet, Chef or Ansible
- Previous experience managing multiple resources and projects
- Solid knowledge of modern UNIX kernels (i.e., Linux, BSD, Solaris, AIX, or HP/UX) in kernel/C development, debugging, problem and performance analysis
- Knowledge of CPU internals, CPU schedulers, memory management
- Experience with layer-2, and/or layer-3 network protocols and technologies
- Virtualization technologies, centralized networking, security management are all big pluses

**Thank you for taking your time to review my application.**

Sincerely,

Rowan Wintheiser
