

Statistician Senior Cover Letter

974 Ritchie Unions North Ciraview, NY 61293

Dear Emery Nader,

I am excited to be applying for the position of statistician senior. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for statistical support for design, analysis, and reporting of clinical, nonclinical or pharmacokinetic trials.

Please consider my experience and qualifications for this position:

- Proven advanced knowledge of light therapy devices, such as Litebook, and light compliance data analysis
- Demonstrated knowledge of medical terminology, sleep disorders and circadian rhythms
- Proven thorough knowledge of and extensive experience in designing and analyzing mixed effect models, generalized estimating equation models (GEE) and conduct random effects analysis of longitudinal trajectories assessing the effects of various kinds of variables and examining the interactions and relationships between different types of variables
- Regression techniques using panel data and time series data
- A pragmatic eye toward data verification, ensuring the integrity and appropriateness of all data used in modeling and analytics
- Undergraduate or Graduate level work in mathematics, statistics, economics, econometrics, quantitative marketing analytics, or related fields
- Lead articulation of advanced analytics roadmap from a methods and technology perspective
- Lead statistical/methodological/analytic sections of proposals

Thank you for considering me to become a member of your team.

Sincerely,

Reese Waelchi
