

Strategy Manager Cover Letter

5439 Saul Spring Schadenland, NH 59012

Dear Story Murray,

In response to your job posting for strategy manager, I am including this letter and my resume for your review.

Previously, I was responsible for market insights of the North American chemical industry to Hach's strategic marketing team.

Please consider my qualifications and experience:

- Managing the development and evolution of a Digital Support real-time dashboard
- Strong Communication, Presentation and Negotiation skills needed
- Data integration & interpretation expertise is essential
- Problem solving and solution developing skills are critical
- Collaboration is extremely important
- Experience in strategy (preferably in a high quality strategy consulting firm or an internal strategy role in a corporate)
- Analytical and numerate, with good attention to detail
- Capable of researching and analysing complex information, and drawing out the necessary conclusions and implications

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Hayden Spencer
