

Strategy & Program Manager Cover Letter

5353 Anderson Crossing South Halina, WY 16326

Dear River Daugherty,

I submit this application to express my sincere interest in the strategy & program manager position.

In my previous role, I was responsible for input into local Flex business and operational strategies to support long term customer and business needs.

My experience is an excellent fit for the list of requirements in this job:

- Experience working with Demand Response programs, DR emerging policies and/or DR product solutions
- Experience working for electric or gas utilities
- Experience consulting with Executives, Directors, and Senior Management, including independently identifying complex issues, developing action plans, identifying deliverables, and presenting results
- Interest in understanding technologies and applying to a policy and program context
- Knowledge or experience with day-ahead or real-time energy market operations, or energy trading/bidding strategies
- Demonstrated proficiency using MS Office (excel, word and PowerPoint), Lync, Adobe and technical tools to manage work and communicate convincingly
- Organization of information
- Experience developing and executing plans to drive results

Thank you for your time and consideration.

Sincerely,

Charlie Oberbrunner
