

Studio Technician Cover Letter

767 Pfannerstill Ranch East Zoila, MI 12959-0309

Dear Greer Kunze,

In response to your job posting for studio technician, I am including this letter and my resume for your review.

In my previous role, I was responsible for advice, recommendations and information on lighting systems to touring lighting designers and production designers;

My experience is an excellent fit for the list of requirements in this job:

- BFA or MFA in Art
- Experience with welding and working in a metal shop
- Skills with power tools and equipment related to sculpture activities such as woodworking, metal fabrication, and mold making
- Supervisory or lead work experience
- Familiarity with processes and procedures of a television production and digital department
- BFA or combination of education and experience working in 3D Digital Fabrication Lab
- Plans and facilitates Connect-a-Camp program
- Helps instructors gather supplies for camps, as needed

I really appreciate you taking the time to review my application for the position of studio technician.

Sincerely,

Dallas Trantow
