

# Supervisor Support Cover Letter

15467 Geoffrey Manor Yolandaview, NC 53590-9499

**Dear Onyx Heathcote,**

I submit this application to express my sincere interest in the supervisor support position.

In my previous role, I was responsible for engineering and operations services relating to all aspects of interconnect facilities and other field projects including: cost estimating, measurement design, contract review, and construction management.

Please consider my experience and qualifications for this position:

- Management experience (Desirable but not a necessity)
- Knowledge of working in toxic/hazardous materials environment, preferably in a chemical process, industrial, demilitarization, construction, oil or gas industry
- Knowledge of military and civilian chemical personal protective equipment
- Hardware engineering experience preferred, with management experience
- Expert at Hardware troubleshooting methodologies, tools and approaches
- Strong understanding of databases and wireless networking
- Strong technical assessment, troubleshooting, mathematical, and analytical abilities
- Understanding of software testing best practices and defect reporting through resolution

**I really appreciate you taking the time to review my application for the position of supervisor support.**

Sincerely,

Rowan Kshlerin
