

System Administration Cover Letter

325 Kessler Ranch Andrewstad, DE 01374-2284

Dear Corey Rath,

Please consider me for the system administration opportunity. I am including my resume that lists my qualifications and experience.

Previously, I was responsible for continuous monitoring, troubleshooting, and first level maintenance of the various application servers, systems and associated peripherals.

Please consider my qualifications and experience:

- Interact with regulatory inspectors
- Exposure to the project-management discipline and related tools/techniques
- Understanding of developmental test and evaluation (DT&E) processes, specifically - acquisition program development and detailed knowledge of Air Force C2 test methodologies including AFI 99-103
- Previous experience planning, executing and reporting Development Test (DT) or Operational Test (OT)
- Knowledge and/or experience with Cisco FlexPod datacenter infrastructure (UCS, NetApp, and VMware)
- Experience working with other Operational Test Organizations (OTOs)
- Knowledge of systems analysis and application software concepts, functions, techniques, and capabilities sufficient enough to evaluate emerging technologies in a developmental environment
- Experience with Windows clients

I really appreciate you taking the time to review my application for the position of system administration.

Sincerely,

Sawyer Funk
