System Administration Cover Letter

829 Milton GatewaySouth Regine, NV 63751-5410

Dear Onyx Wolf,

Please consider me for the system administration opportunity. I am including my resume that lists my qualifications and experience.

In my previous role, I was responsible for technical support for client workstations and resolve system and program issues for all applications utilized by staff, including the upgrade of operating systems to support new applications.

Please consider my qualifications and experience:

- Course or project work in database and workflow management software
- Preferred interest in development of training curriculum
- Certification in OS technology (e.g., Certified UNIX Administrator, Linux Certification)
- System Administration Interests, Some Linux Knowledge, Interest in scripting, technically savvy, good analytical skills
- Working knowledge of TCP/IP networking (DNS, DHCP, etc) and familiarity with EDA tools and workflows
- Experience in large scale environments like PXE, LDAP, NFS
- Experience with configuration management tools like Chef, Puppet, Ansible or Salt
- Experience implementing or managing monitoring and logging tools (Nagios/Ganglia)

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Max Will
