

System Support Analyst Cover Letter

403 Mann Summit East Retha, NY 26048

Dear Riley Spinka,

I am excited to be applying for the position of system support analyst. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for assessment of current and future allocation methodologies balancing various stakeholder needs and ability to obtain necessary data.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Relational database fundamentals and SQL programming experience at good level
- Basic C# and javascript skills
- Strong analytical problem solving, initiative and decision making skills
- Cloud Certification or OpenSource technologies certification
- Technical, business and clinical experience
- Experience in consulting with vendors, clients and management
- Strong knowledge of ITSM or BMC tools
- Experience in Lean 6 Sigma or ITIL principles will be an advantage

Thank you for taking your time to review my application.

Sincerely,

Charlie Crist
