I would like to submit my application for the systems administration opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for hands-on system administration and support of legacy server architecture and operating systems and is responsible for assisting with data backup, retention, and migration of legacy environments.

My experience is an excellent fit for the list of requirements in this job:

- Experience with KVM switches and audio/visual control systems
- Shell scripting and Python experience
- A solid understanding of object-oriented programming on Windows development platforms (MS Visual Studio)
- O) Deploy database change scripts provided by third party vendors, contractor, and/or organizations
- Experience with Microsoft Server OS and client, Active Directory, DNS, DHCP, Hyper-V, VMware, SQL Server, System virtualization support using Hyper-V and VMware
- College diploma in an IT, System Administration, Database or Network support
- SAP Certifications are an assey
- Experience with Red Hat Enterprise Linux or equivalent Unix OS

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Hayden Kuhic
