

Systems Administration Cover Letter

70870 D'Amore Dale Okunevahaven, OR 64560

Dear Onyx Luetzgen,

Please consider me for the systems administration opportunity. I am including my resume that lists my qualifications and experience.

In the previous role, I was responsible for subject matter expertise on IT operating systems, computing hardware platforms and systems administration to provide Tier 2/3 support; escalate to Senior System Administrator as needed.

Please consider my qualifications and experience:

- Experience supporting Unix OS level configurations for enterprise networking and storage technologies
- Experience with automating production processes and procedures
- Experience documenting work tasks and changes in tools such as Jira, Rally, Service Now, or Remedy
- Registry Services, E-commerce or ISP environment experience
- Enterprise Application Integration experience
- Deployment automation experience using tools such as Cobbler, Puppet, Ansible and Fabric
- Experience with Docker in a production environment
- Experience with Openstack in a production environment

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Armani McGlynn
