

Systems Administration Cover Letter

907 Swaniawski ShoreEverettfort, KS 74001

Dear Emerson Brown,

I am excited to be applying for the position of systems administration. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for tier-2 and Tier-3 System Administration support for servers, SANs, and operating systems; to include Windows server OS's as well as some Linux instances.

My experience is an excellent fit for the list of requirements in this job:

- Experience administering UNIX systems in a large scale environment
- Experience using Jenkins in a continuous delivery and integration environment
- Experience using VMWare in a production environment
- Experience collaborating with peer groups such as QA, Development and Project Management
- Industry best-practice system security guidance for large Linux environments (system hardening, directory authentication, patching)
- Expertise in installation, management and use of software such as compilers, scientific applications, and job resource managers
- Comprehensive knowledge and expertise in UNIX systems administration, with emphasis on Linux
- Comprehensive knowledge and expertise in installing, configuring, tuning, and supporting Lustre filesystems

Thank you for your time and consideration.

Sincerely,

Azariah Klocko
