Systems Administration Cover Letter

7863 Abernathy TurnpikeNienowchester, SC 65337-3202

Dear Armani Gorczany,

I submit this application to express my sincere interest in the systems administration position.

In my previous role, I was responsible for technical expertise to ensure that Voice and / or Data communications and network facilities; operating systems, products, etc.; or hardware - disk, central processing unit, etc.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Comprehensive knowledge and expertise in SAN and related technologies
- Comprehensive knowledge of networked, parallel and cluster file systems such as NFS, PVFS, Lustre, and GPFS
- Comprehensive knowledge of and expertise in Internet resources, facilities, activities and techniques
- Comprehensive flexibility in dealing with assignments and in working on several projects simultaneously
- Considerable installation, configuration, management and use of high performance computers such as clusters of Linux boxes, large SMPs, and hybrids
- Excellent communication skills in team environments on individual projects are mandatory
- Experience deploying production virtual environments
- Able to work 3rd shift long-term

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,
