

# Systems Administrator Linux Cover Letter

6979 Lilliam HollowPort Von, CO 03666-9104

**Dear Spencer O'Keefe,**

Please consider me for the systems administrator linux opportunity. I am including my resume that lists my qualifications and experience.

In the previous role, I was responsible for all levels of Operating System (OS) support for all servers and shall participate in the following activities at the direction of the Government to achieve the desired outcomes.

Please consider my experience and qualifications for this position:

- Basic knowledge of working on systems in a controlled environment with configuration management oversight (software releases, implementing standard configurations)
- Experience with Virtual Environments (Suse Linux – KVM or similar)
- Experience with security configurations throughout infrastructure (firewall, VPN, facilities, platforms, security certificates, and credential management)
- Experience with enterprise switches, routers, and storage solutions
- Strong knowledge of network knowledge, such as routers, switches
- Experience in ServiceNow or Remedy Incident Management and Remedy Change Control, or any automated ticketed system
- Able to work flexible hours, including weekends
- Scripting Experience Perl, Korn Shell, Bourne Shell

**Thank you in advance for taking the time to read my cover letter and to review my resume.**

Sincerely,

Rowan Wehner
