

Systems Administrator Linux Cover Letter

354 Yen FallsWilkinsonberg, IN 01468

Dear Zion Dickens,

I would like to submit my application for the systems administrator linux opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for technical support and knowledge in the design of new solutions, working with Systems Engineers, Developers and DBAs.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Assess the security risk of proposed Firewall modifications and implement approved changes
- Provide input for a monthly progress and status report
- Maintain knowledge of current technologies and their potential application to the RDT&E environment
- Subject matter expert regarding Red Hat Linux version 6, Solaris version 10, and Sun Systems hardware
- Unix Security Framework knowledge (PAM, KDC/LDAP, SSH key management)
- Proficient with RedHat / Oracle Linux in physical and virtualized environments
- Working with scripting languages like Bash, Perl, and Python
- Experience building custom RPM packages

Thank you for considering me to become a member of your team.

Sincerely,

Gray Sipes
