

Systems Security Specialist Cover Letter

3236 Schneider Path Lake Charles, ME 45704-6948

Dear Morgan Carroll,

I would like to submit my application for the systems security specialist opening. Please accept this letter and the attached resume.

Previously, I was responsible for support for a system or enclave's information assurance program through security authorization activities in compliance with Risk Management Framework (RMF).

Please consider my experience and qualifications for this position:

- Have experience as an individual contributor and team leader successfully executing PoTs / PoCs and extensive demonstrations in complex and competitive sales situations
- Deep understanding of Security Information and Event Management (SIEM)
- Have experience with working in sales teams in complex, competitive sales situations, including PoCs and extensive demonstrations
- Strong knowledge and understanding of TCP/IP networking, network security, firewall technology, routing protocols, and switching technologies (VLANs, trunking, VTP, Spanning Tree)
- Proficient in capturing and analyzing packets with tcpdump, Wireshark or other common network analysis tools
- Proficient in the use of Cisco managed network switches and Cisco IOS
- Working knowledge of Checkpoint security appliances and IPS security blade
- Fundamental understanding of WAN technologies and protocols (MPLS and private line), OSI model, and routing protocols

Thank you for your time and consideration.

Sincerely,

Lennon Lang
