

# Systems Security Specialist Cover Letter

73582 Jarvis MountForestborough, KS 96619

**Dear Charlie Wilderman,**

Please consider me for the systems security specialist opportunity. I am including my resume that lists my qualifications and experience.

In the previous role, I was responsible for security policy guidance and security management support to the Country Director and CO management team enabling effective programme planning, implementation and delivery within the framework of all UN security policies and procedures;.

Please consider my qualifications and experience:

- Knowledge of open source security tools like Nessus, Snort, Wireshark, and Nmap
- Knowledge of Malware, Antivirus, and host firewalls/IPS
- Skills in working with TCP/IP and application network protocol
- To deliver and implement the operational end to end delivery for predominantly one security service and for the Security strategy, policy, procedures, processes, threat identification & response that provide security services and solutions for or on security infrastructure, for a mixture of both internal BT and a subset of expert commercial security services to the external market
- Intel/Forcepoint Firewall (aka Sidewinder)
- BigIP F5 LTM, ASM, GTM
- Bluecoat Proxy SG
- Security System Appliance Support - Lenel readers and cameras

**Thank you in advance for reviewing my candidacy for this position.**

Sincerely,

Morgan Gorczany
