

# Systems Security Specialist Cover Letter

441 Mills HeightsFaviolaborough, NM 10523

**Dear Rory Swaniawski,**

I submit this application to express my sincere interest in the systems security specialist position.

In my previous role, I was responsible for information assurance project management, and development of mission-critical technical documents as required by the customer security policies.

My experience is an excellent fit for the list of requirements in this job:

- IAM Level 1 DoD 8140.01 (previously 8570.01) compliant certification
- Cross-Functional Partnerships
- Deliver technical support for maintaining and improving the integrity of the organisation's security information processes and systems
- Work under broad direction
- Be fully accountable for own technical work and project responsibilities
- Deliver aspects of the security programmes that supports BT security strategy and policy
- Provide advice to the business from a risk, compliance and incident management perspective within own programme area
- Provide support for BT Security incidents and during crisis management situations

**I really appreciate you taking the time to review my application for the position of systems security specialist.**

Sincerely,

Rory Heathcote
