

Team Lead-Management Cover Letter

2449 Lemke ViewsRuthieport, DE 16021

Dear Riley Corwin,

In response to your job posting for team lead-management, I am including this letter and my resume for your review.

Previously, I was responsible for proven expertise in Management System's / Management Framework and processes' outcomes / objectives setting, risk assessment, controls establishment and implementation and process assurance with the ability to tailor global leading practices for specific fit-for-purpose guidance for NCOC CMS.

Please consider my experience and qualifications for this position:

- Knowledge of NPI, Fulfilment & RMA processes
- Flexible to changing priorities and to work outside of office hours as the business dictates
- Ensure tasks and responsibilities are clearly communicated and assigned to each team member
- Highly-developed computer skills (MS Office, Windows), knowledge of CAT tools and project tracking software
- Manage team resources and Personal Development, feeding into the process for objective setting and ensuring regular 1 to 1s are carried out on a regular basis
- Perform the BCP test preparation activities and coordination (Call tree, Technical and Functional tests)
- The Service Operations Manager (SOM) works in Technology and runs the end to end management of a portfolio of high criticality services and has overall responsibility for ensuring the optimum performance from the in-scope services within the PCB ASSM unit
- Leading a team pf product managers owning features of the in-dash navigation solutions used via smartphones or websites

Thank you in advance for reviewing my candidacy for this position.

Briar Schoen
