

Team Technician Cover Letter

839 Mueller StravenueMayerland, NJ 25526

Dear River Rempel,

I would like to submit my application for the team technician opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for support to Maintenance, Technical and Operations personnel through the development and review of machinery repair checklists, preventive or predictive maintenance checklists, and maintenance or operating procedures as necessary.

Please consider my experience and qualifications for this position:

- Some experience with fiber network planning, design and deployment
- Familiarity with DSL, Ethernet, Peering, IP Transit, Dark Fiber and Wavelengths
- Auditing and site surveying experience preferred
- Capable of managing high pressure and short timelines, with the willingness to be flexible
- Safely performs complex patient lifts/transfers, including competent handling of multiple lines, ventilators, traction devices, in coordination with the patient care team
- Communicates effectively all observations related to patient activity to appropriate patient care team member
- Provides ongoing education related to lift and transfer techniques to patient care team
- Maintains all records and equipment pertinent to the activities of the lifting team

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Dylan Heaney
